S i r,

Subject - Tuberculosis Sanatorium, Mudashedde - S.Kanara Dt. - Completion report of works - Orders solicited for handing over of -

In continuation of this office communication dated 20-2-1953 we beg to report that ~~kkk~~ final bills for the following items of works have been prepared already and all work completed except sanitary fittings which has to be undertaken by the P.W.D. We request that the buildings may be arranged to be taken over by the Public Works Department as early as possible:-

(1) Administration Block
(2) Twin Ward of 20 beds each
(3) Quarters for three Nurses
(4) Quarters for Sub. Assistant Surgeon

The remaining buildings viz. (1) Quarters for 4 Nursing Orderlies (2) Quarters for three thotties and (3) Quarters for one Compounder also will be completed by 15-2-1954. As a kitchen block was found absolutely necessary construction of this has been started and will be completed by 15-3-1954. All these buildings also will be completed, the Committee prays that arrangements may be made for the transfer of all these buildings to the Public Works Department.

Yours faithfully,

Honorary Treasurer.

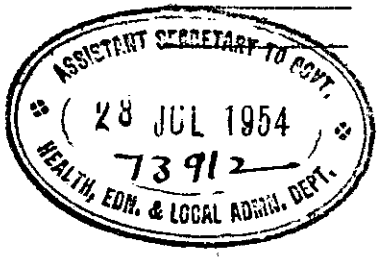
No. 8328 Wks/53-9, dated 19th July 1954

Sir,



Sub:-Tuberculosis - Tuberculosis Sanatorium, Mudasheddc - South Kanara District - Buildings - Handing over to the Public Works Department by the Provincial Welfare Fund.

Ref:-Govt.Memo.No.10073H IV/54-3 ~~dx~~ Health dated 22-6-54.

The Executive Engineer,South Kanara Division has reported that the construction work on the kitchen block attached to the Sanatorium is still incomplete, and therefore the completed buildings cannot be put to effective use by the Medical Department at this stage.

The taking over of the buildings by the Public Works Department at this stage will entail certain additional expenditure towards the appointment of a watchman and maintenance of ~~a~~ th buildings during the interim period before occupation by the Medical Department.

Ref:No.47769/M/54 dated 21-2-55

Sir,

Sub:-Buildings--Tuberculosis Sanatorium, Mudishedde,
South Kanara District.

Ref:-Government Memo.10073-H I V-2/54-1 d/1-3-1954.
Government Memo.No.64548-H I V-/2/54-2 Health,
dated 4-9-1954.

The fact that Mudisheddi is at a distance of about six miles from Mangalore and that electric connection will have to be provided from such a long distance appears to have been overlooked while preparing the approximate estimate for the construction of the Tuberculosis Sanatorium, Mudishedde. Only a nominal provision was made for electric and sanitary fittings. As the cost of extension of H.T. line from the power house of Mangalore Electric Supply Co. to the Sanatorium will approximately be Rs.3½ lakhs, the Electrical Engineer (General) has proposed the installation of 2 Nos. Diesel engines for generating electricity at Mudisheddi itself.

2. According to para 1 (ii) of G.O.3403, Public Health, dated 26-9-1949 the South Kanara District Branch of the provincial Welfare Fund should be asked to meet any additional expenditure that may be required for the opening of the Sanatorium including its equipment. Apparently the above Association has not been able to fulfil its promise. A suggestion has been made that the completed buildings of the Sanatorium may be taken over and the Sanatorium opened and, until electricity is provided, the patients may be brought over to the Headquarters Hospital, Mangalore for check up and x-raying whenever necessary. I agree with this suggestion. An ambulance will have to be provided at the Sanatorium if the above suggestion is to be implemented.

I am asking the District Medical Officer, South Kanara to furnish a list of the minimum essential requirements yet to be provided before the Sanatorium can shart functioning and on receipt of his reply a further report will be submitted to the Government.

Yours faithfully,

For Director of Medical Services.

chr/22.2.

The receipt of the DMS's further report referred to at A above awaited. He may be reminded again on 25.3.55 if necessary.

To

The Hon'ble Minister for Health,
Government of Madras,
Fort St. George,
Madras.

MINISTER FOR HEALTH
15MAR1955

Sir,

It is with great pleasure that I bring to your kind notice that all the Sanatorium buildings including a kitchen have been completed by us at a total cost of Rs.1,72,660--0--0 as per details given herebelow. Out of this cost the Government have provided Rs.29,400--0--0 only. A sum of Rs.70,600--0--0 out of the Government grant of Rupees one lac has been earmarked to be spent - for sanitary works, water-system and drainage scheme and for equipment. The Public Works Department has put up the sanitary fittings. I also understand that the ---- District Medical Officer at Mangalore has in stock the - equipment necessary for starting the sanatorium.

The buildings have been completed some time ago and may I therefore request the Government to take over the buildings early and start the Sanatorium work.

Meanwhile the District Medical Officer is asking me when we will be providing the balance of our share of expenditure on the construction of the buildings as stipulated in G.O.No.3403, Public Health, dated 26-9-1949. This querry is based on a wrong premises because subsequent to G.O.No.3403, Public Health, dated 29-6-1949, the scheme was modified and approved and it was finally agreed that we should put up the buildings only, now completed by us,

Ref: Your D.O.10073 H.IV-2/54,-8 Health dated 31-3-1955.

I enclose a copy of letter C.No.2594/55 dated 28-3-1955 from the District Medical Officer South Kanara furnishing a list of minimum essential requirements yet to be provided before the Tuberculosis Sanatorium, Mudishedde can start functioning. In the circumstances stated therein, it may not be possible to open the Sanatorium in the last week of this month.

However, I am forwarding a copy of your D.O. cited to the District Medical Officer, South Kanara for necessary urgent action.

Yours sincerely,

Sanghamitra

To
Sri K. Ghulam Mahmood, I.A.S.,
Joint Secretary to Government, Health, Education and Local Administration Department, Madras-9.

Copy of letter C.No.2594/55 dated 28th March 1955 of the District Medical Officer, South Kanara to the Director of Medical Services, Madras.6.

Sub: Buildings - Tuberculosis Sanatorium, Mushedde, South Kanara District.

Ref: Govt. Memo 10073 H.IV-2/54-1 d/1-3-1954.
2. Govt. Memo No.64548 H.I V.2/54-2 Health dated 4-9-1954.
3. Ref.No.47769 M-54, dated 21-2-1955 of the Director of Medical Services, Madras-6.

A list of minimum essential requirements yet to be provided before the Sanatorium can start functioning, is furnished below.

(1) All the subsidiary buildings required viz. kitchen latrines etc. are completed except mortuary.

(2) Water supply and drainage arrangements are completed. (Water has to be baled out from the well).

(3) Roads laying not completed.

(4) Cots, bedside lockers, surgical equipments have been purchased. Orders have been placed for kitchen utensils.

(5) Six numbers of Petromax are required. One steam sterliser has been ordered for.

(6) An ambulance is required and a garage also to be constructed at Mangalore. If it is to be used for other purposes also the ambulance should be carbolised.

(7) Medicines and Lines have been purchased. Furniture and mattresses could be made available by June 1955. These are not available in the Headquarters Hospital, Mangalore to issu on loan.

(8) Sanction of the Government has been obtained for th staff. (Medical and non-medical) G.O.No.Ms.2249 Health dated 25-6-1951.

(9) Compound wall or fencing and gate have not been provided. They are necessary to prevent entry of cattle and dogs and strangers.

(10) An over head tank with pipe connection is a necessity for water supply which will cost about Rs.10,000/-

As the situation of the ward have no protection from Sun and Rain, the patients would be exposed to the sun and the rain. The Secretary of the Madras Provincial Welfare Fund has been requested to provide glazed windows on pivet joints for the wards.

One peon and one female toty is required in addition to the staff sanctioned. Sanction was accorded for the employment of 3 toties. There should be atleast 4 toties (2 males and 2 females) to take duties by turns day and night).

Peon has not been sanctioned. A peon is quite essenti as the distance from the Sanatorium and the Headquarters Hospital is 7 miles. All the bills will have to be cashed at Mangalore Treasury and it will not be possible for the Clerk or any other staff to go to Mangalore for the purposes. Besides messages will have to be conveyed from the Sanatorium to the Headquarters Hospital.

The Secretary of the Madras Provincial Welfare Fund states that the Provincial Welfare Fund has not undertaken to find funds for providing electricity to the Sanatorium and tney have given an evasive reply, a copy of which is enclosed herewith I suggest that the Government may meet the expenditure for providing electricity and subsequently recover from the Provincial Welfare Fund. Otherwise the opening of the Sanatorium will be postponed indenfinitely.

Para 4 of the letter of Secretary, Madras Provincial Welfare Fund, in which he states that the Government had paid only Rs.29,400/- which is incorrect. An amount of Rs.50,600/- has been set apart for X-ray apparatus, equipment, furniture etc. out of which a sum of Rs.15,404-8-0 has already been spent.

Copy of letter dated 14th March 1955 from the Secretary The Madras Provincial Welfare Fund, South Kanara District Branch to the District Medical Officer, South Kanara, Mangalore.

Ref: Your letter M.E.D.1/C-C.No.2594/55, dated 28-2-55

With reference to your above letter I invite your kind attention to my reply letter in November 1954 to your letter C.No. 11897 C.1/54, dated 26-9-1954.

As explained therein, there is no balance payable by us to the Government.

Subsequent to G.O.No.3403 Public Health, dated 26-9-49 the original scheme was modified and finally it was agreed that we should put up only the buildings and that the Government should provide the sanitary fittings, waterworks, drainage equipment etc. and run the Sanatorium.

As intimated earlier all the buildings have been constructed at a total cost of Rs.1,72,660--0-0 out of which the Government had paid only Rs.29,400/- and the balance of Rs.1,43,260 have been provided by us from collections from the general public and institutions.

Regarding the cost of providing electricity to the Sanatorium, I wish to state that we have not undertaken to find funds for it. All the same I may state that we will try our best to collect further donations and contribute towards the cost therefor. Anyway as electricity from Udipi is likely to be released soon which passed very near to the Sanatorium site, pending electricity from Jog, I think we can obtain electricity at the Sanatorium site at negligible cost. Hence there may not be any necessity to provide for a generating system solely for the Sanatorium.

As all the buildings have been completed some time ago, may I earnestly request you to make necessary arrangements to open the sanatorium as early aspossible earlier the better. It is really heartending to see that though the buildings have been completed, they are lying unused, when there is such a crying need for a Tuberculosis Sanatorium here.

Hoping that you will please expeditiously do all necessary things, to open the Sanatorium to the suffering poor.

Thanking you in anticipation.

HEALTH, EDUCATION & LOCAL ADMINISTRATION DEPARTMENT.

Fort St. George, Madras-9,
dated 5th April 1955.

D.O. No.10073-H.IV-2/54-9,

Dear Colonel Sangham Lal,

Subject: Tuberculosis - Tuberculosis Sanatorium, Mudishedde, South Kanara District - Opening of.

Reference: Your D.O. No.47769-H-54, dated 1st April 1955.

I am to inform you that it is a fairly long time since the Sanatorium buildings at Mudishedde were completed. The Minister for Health considers that the opening of the Sanatorium should not be delayed any longer and that the opportunity should be taken to get the building opened by the Chief Minister during his ensuing tour in this district in the last week of this month. The difficulties urged by the District Medical Officer, South Kanara, are not insurmountable. It should be possible to make temporary arrangements, so that the opening ceremony may be gone through as programmed. Lamp lights can be used till electricity is provided. Similarly other arrangements can be pushed through, so that at least a few patients could be admitted on the opening day.

I am to request you to issue immediate instructions to the District Medical Officer, South Kanara, to proceed expeditiously with the necessary arrangements and complete them in time, to ensure the opening of the Sanatorium by the end of this month. A report may be sent to Government within a week regarding the action taken in this matter.

Yours sincerely,

(K. GHULAM MAHMOOD)

Office of the Director of Medical Services, Madras-6, dated 11.4.55

Dear Sri Ghulam Mahmood,

Sub: TUBERCULOSIS SANATORIUM, MUDISHEDDE Opening of.

Ref: Your D.O.100073-HIV/2/54-9 dated 5.4.55.

*****

I enclose for the information of the Government (i) Copy of D.O. letter No.15-CD, dated 6-4-55 of the Executive Engineer, South Kanara Division, Mangalore addressed to the Deputy Chief Engineer.

(ii) Copy of D.O.4714/55 dated 8-4-55 from the District Medical Officer, South Kanara.

I recommend that the interim arrangement proposed by the Executive Engineer for provision of water supply may be approved and immediate authorisation issued to the Executive Engineer to incur necessary expenditure.

2. The District Medical Officer, South Kanara, has asked for sanction for an expenditure of Rs.2,000/- in connection with the opening ceremony such as colour washing of buildings, putting up of a pandal, seating arrangements, printing of invitation cards and transport arrangements from Mangalore to Mudishedde of the equipments etc. In letter dated 12-3-55 of the District Branch of the Provincial Welfare Fund (copy forwarded with Government Endt.10073-HIV-2/54-5 Health dated 19-3-55) it was stated that the Provincial Welfare Fund would arrange for a small opening function. I have therefore asked the District Medical Officer, South Kanara to contact the Honorary Secretary of the District Branch of the Provincial Welfare Fund and submit necessary revised proposals. As the time available is very short, sanction of Government may be accorded for incurring an expenditure of not exceeding Rs.2000/- in connection with the opening ceremony on items which are not arranged by the Provincial Welfare Fund.

Yours sincerely,

for DIRECTOR OF MEDICAL SERVICES

P.T.O.

To

Sri K. Ghulam Mahmood, I.A.S.,

Sub: BUILDINGS - Tuberculosis Sanatorium, at Mudushedde taking over by Government and opening by the Chief Minister during last week of April 1955.
Ref: Your D.O.No.4022.Wks(3)/55-8, dated 31-3-1955.

--x--

In continuation of my telegram confirmed in the Post copy bearing No.39.CE, dated 2-4-1955, I met the District Medical Officer, South Kanara, Mangalore again and discussed the position as to how best to make it possible to have the opening function arranged during the Hon.Chief Minister's visit to Mangalore in the last week of this month. I may mention in this connection, that the District Medical Officer also has been informed by the Director of Medical Services, Madras that the opening ceremony by the Hon.Chief Minister has been decided on by the Government and should be arranged positively.

The following are the primary difficulties to be overcome and I give also my proposals for meeting the same.

The two wells in the Sanatorium area do not have sufficient yield of water at present during the summer months from November to June. No overhead tank system can be set going deepening on the supplies available now from these. Without water for the patients for cleaning, washing, cooking, etc., and the residential staff that will be stationed in the sanatorium colony the institution cannot be successfully run even for the single day. So, immediate arrangements have to be made for the following.

1) A permanent solution for making available water supplies will take time and will not be practicable to be completed in time for the opening function. Hence, an interim arrangement and the financial provision therefor have to be made. It may cost about Rs.30/- per day to ensure sufficient supplies of water to keep the hospital organisation going. This will be necessary till about the middle of June when with the on set of monsoon there is expected to be copious supplies in the well from the middle of June to about the end of October every year. So, the cost to be incurred towards supply of water is expected to be Rs.30 x 60 = 1,800/- plus Rs.200/- for 2 cisterns to store the water from the middle of April upto the middle of June.

It is proposed to arrange with the municipal authorities Mangalore to hire their water lorry for two trips of 500 gallons per trip per day. Each trip will be about 15 miles to and fro and the cost of two trips will be about Rs.30/- per day at Re.1/- per mile.

In case the municipality is unable to spare their lorry I intend engaging a few water ~~carts~~ carts and convey the requisite quantity of water from a nearby pond about 6 furlongs away which has sufficient supplies of water, chlorinate the same and use it. Two cisterns will be constructed to store the water. The expenditure in this case also from the middle of April to Middle of June will be about Rs.2000/-. I have, however, to submit that unless the District Medical Officer or me is authorised to incur this expenditure, supply of water cannot be asured and the opening function and the proper working of the hospital cannot be arranged successfully. The question whether the Provincial Welfare Fund, Medical Department of P.W.D. has to bear this cost, I suggest, can be taken up later but in the meanwhile the P.W.D. should be permitted to incur the necessary expenditure to make the requisite arrangements expeditiously.

The permanent solution of supply of water to the Sanatorium will be 1) either to try boring sets and drill till the springs if any at lower depths are met with. If sufficient supplies become available pumping arrangement, overhead tank and laying of pipe lines are to be done. This may require about Rs.20,000 for deepening the well, installing pumpsets, overhead tank and the connected distribution system for a length of about 5000' in all. 2) In case no springs are met with, by boring the well, I suggest that a perennial spring pond in a local dip about 3/4 mile from the Sanatorium can be used for installing a pump at the pond site lay a main and pump up to the overhead tank. In this case, about 3000" of extra pipe length of 3" dia. is required from the pond to the overhead tank and so will be costlier than the first alternative stated above by about Rs.10,000/-.

Whichever alternative is investigated and adopted, the Government may have to incur the expanditure as the Provincial Welfare Fund appears to be at its tether's end with regard to financing the scheme. The work can be expedited if an early decision is taken as to who was to bear the expenditure and the funds are made available.

The second difficulty of the District Medical Officer is about the openings over the dwarf wall in the Twin ward in all the ways. The width of this ward is 40' and with both sides open, the whole ward will be wet during the rainy sesons if no suitable protection is made. The design adopted for the ward may be standard design well suited and quite successful in the plans where the annual rainfall is generally from about 25" to 50" but is not suitable for South Kanara which has a rainfall of about 120" during the four months from June to September. The Twin Ward, without proper protection against rain, will be almost unusable during rainy season by anyone.

Necessary protection can be given by installing glazed windows with swival doors (which can be opened and closed) at one or two places in each, similar to the provision made in Wenlock Hospital. This is likely to cost about Rs.5000/-, at Rs.5/- per sq.ft. In this case also the question as to who should provide funds looms large.

In this connection, I may submit that if G.O.No.3403, P.H., dated26-9-1949 and G.O.Ms.No.3096, Health, dated 5-9-1950 are literally interpreted and followed, the Government need not and should not spend a single pie more and should call upon the Mangalore branch of the Provincial Welfare Fund to provide the entire funds required since the contributions made by them is for short of their original promise. If this condition is insisted on, judged by the conditions prevailing locally, I feel there will be very little chance of the Sanatorium functioning properly in the immediate future though some makeshift arrangements can be made and will definitely be made for the opening functions since the Government have decided to perform it. If the Sanatorium is really to fulfil what it is meant to, unless the water supply is assured and some protection against rain is made in the Twin Ward sufficiently in the time before the outbreak of monsoon early in June, the Sanatorium cannot function satisfactorily.

However, I submit the fact remains that a set of buildings consisting about Rs.1,72,000/- have been almost completed but remain unoccupied for the past several months due to lack of certain primary necessary amenities. A very early decision has to be taken as to who should bear the further expenditure on the provisions of these necessities without which it will not be possible to use these buildings. I will submit detailed estimates for the further items of works to be done on receipt of intimation of provision of funds or if need be, earlier if it is desired.

I have requested the District Medical Officer to arrange for the necessary funds required for the opening function.

I request early orders may kindly be issued for incurring the expenditure required for arranging for interim and permanent Water supply and providing protection against rains. I once again submit that without these amenities the Sanatorium cannot function satisfactorily. Of course, it is decided that the above financial commitments are to be borne only by the Mangalore Branch of the Provincial Welfare fund, I request that they may kindly be addressed. However, I am afraid it may not be helpful to achieve the efficient functioning of the Sanatorium for it, to be opened on the 26th instant.

COPY of D.O.C.No.4714/55, dated 8th April 1955, from the District Medical Officer, Mangalore, to the Asst. to the Director of Medical Services (E.S.I.).

Sub: Tuberculosis Sanatorium, Mudushedde - Opening of - Arrangements.

Ref: Your D.O.letter No.47769-M/54, dated 6-4-1955.

I inspected the Tuberculosis Sanatorium Buildings, Mudushedde along with the Executive Engineer, South Kanara Division, Mangalore on 5-4-1955. The Executive Engineer was requested to provide water supply and reservoir (cement cistern) for patients, administration blocak and quarters. Request was also made to the Director of Medical Services to post Medical Officers and Nurses in my Post Copy of elegram dated 5-4-1955. Arrangements have been made to recruit other staff through the local Employment Exchange, Mangalore. It was requested to allot a sum of Rs.2,000/- to meet the expenses in connection with the opening ceremony of the Tuberculosis,Sanatorium, such as colour washing of the buildings, putting up of a pandal, seating arrangements, printing of invitations cards and transport arrangements of medicines from Mangalore to Mudushedde. I wish to point out that the water supply is a great problem which looks insurmountable. The wells contain about 2 feet of dirty waters. The Executive Engineer has made an exhaustive report to the Chief Engineer. In this connection, I wish to invite your kind attention to my Endorsement C.No.4714/55, dated 7-4-1955, communicating a copy of this office letter C.No./55, dated 6-4-1955, to the Executive Engineer, South Kanara, Mangalore.

Ref: D.O.letter No.10073 H.IV-2/54-10 dt.5-4-55 from Sri K. Ghulam Mahmood, Joint Secretary to Govt., Health, Education and Local Admn.Dept.

With reference to the D.O.letter from Sri K. Ghulam Mahmood, Joint Secretary to Government, Health, Education and Local Administration Department, cited above, necessary instructions have been issued to the Executive Engineer, South Kanara Division to see that all the building works relating to the T.B.Sanatorium, Mudishedde, are completed by the authorities of the Madras Provincial Welfare Fund, Mangalore, immediately so that the buildings may be taken over by this Department by the middle of this month.

2. In this connection I enclose a copy of D.O.letter No.15 CD dated 6-4-55 from the Executive Engineer, South Kanara Division and my Deputy's reply to him in D.O.No. 4022 Wks(3)/55-12 dated 7-4-55. As pointed out in my Deputy's

D.O...

D.O. the lack of reliable water supply to the Sanatorium and the lack of protection to the Twin ward against monsoon are no doubt serious drawbacks in working of the Sanatorium. The Mangalore Branch of the Provincial Welfare Fund cannot be expected to undertake these items and complete them, once the buildings are taken over by this Department. Further, as the Mangalore Branch of the Provincial Welfare Fund are stated to be short of funds, I consider that these items will have to be completed by this Government only at their cost if the Sanatorium is to function properly. I therefore request that necessary sanction of Government may please be accorded for the execution of the abovementioned two items of works by the Executive Engineer, South Kanara Division at State cost. Very early orders of Government may kindly be issued in the matter.

Sub: Buildings - Tuberculosis Sanatorium at Mudushedde taking over by Government and opening by the Chief Minister during last week of April, 1955.

Ref: Your letter D.O.No.4022 Mks(3)/55-8 dt.31-3-55.

In continuation of my telegram confirmed in the Post copy ~~of~~ bearing No.39-CE dated 2-4-55. I met the District Medical Officer, South Kanara, Mangalore again and discussed the position as to how best to make it possible to have the opening function arranged during the Hon.Chief Minister's visit to Mangalore in the last week of this month. I may mention in this confection, that the District Medical Officer also has been informed by the Director of Medical Services, Madras, that the opening ceremony by the Hon.Chief Minister has been decided on by the Government and should be arranged positively.

The following are the primary difficulties to be overcome and I give also my proposals for meeting the same.

The two wells in the sanatorium area do not have sufficient yield of water at present during the summer months from November to June. No overhead tank system can be setgoing depending on the supplies available now from these. Without water for the patients for cleaning, washing, cooking etc. and the residential staff that will be stationed in the sanatorium colony, the institution cannot be successfully run even for a single day. So, immediate arrangements have to be made for the following.

1) A permanent solution for making available water supplies will take time and will not be practicable to be completed in time for the opening function. Hence, an interim arrangement for supply of requisite quantity of water from some outside source and the financial provision therefor have to be made. It may cost about Rs.30/- per day to ensure sufficient supplies of water to keep the hospital organisation going. This will be necessary till about the middle of June when with the offset of monsoon there is expected to be copious supplies in the well from the middle of June to about the end of October every year. So, the cost to be incurred towards supply of water is expected to be Rs.30 x 60 = Rs.1800/- plus Rs.200/- for 2 cisterns to store the water from the middle of April upto the middle of June.

It is proposed to arrange with the municipal authorities Mangalore to hire their water lorry for two trips of 500 gallons per trip per day. Each trip will be about 15 miles to and fro and the cost of two trips will be about Rs.30/- per day at Re.1/- per mile.

In case the municipality is unable to spare their lorry I intend engaging a few water casts and convey the requisite quantity of water from a nearby pond about 6 furlongs away which has sufficient supplies of water, chlorinate the same and use it. Two cisterns will be constructed to store the water. The expenditure in this case also from the middle of April to Middle of June will be about Rs.2000/-. I have, however, to submit that unless the District Medical Officer or me is authorised to incur this expenditure, supply of water cannot be assured and the opening function and the proper

working.

working of the hospital cannot be arranged successfully. The question whether the Provincial Welfare Fund, Medical Department or P.W.D. has to bear this cost, I suggest. can be taken up later but in the meanwhile should be permitted to incur the necessary expenditure to make the requisite arrangements expeditiously.

The permanent solution of supply of water to the sanatorium will be 1) either to try boring sets and drill till the springs if any at lower depths are met with If sufficient supplies become available pumping arrangement, overhead tank and laying of pipe lines are to be done. This may require about Rs.20000/- for deepening the well, installing pumpsets, overhead tank and the connected distribution system for a length of about 5000' in all. 2) In case no springs are met with, by boring the well, I suggest that a perennial spring pond in a local dip about 3/4 mile from the Sanatorium can be used for installing a pump at the pond site lay a main line and pump upto the overhead tank. In this case, about 3000' of extra pipe length of 3" dia is required from the pond to the overhead tank and so will be costlier than the first alternative stated above by about Rs.10000/-.

Whichever alternative is investigated and adopted the Government may have to incur the expenditure as the Provl Welfare Fund appears to be at its tether's end with regard to financing the scheme. The work can be expedited if an early decision is taken as to who has to bear the expenditure and the funds are made available.

The second difficulty of the District Medical Officer is about the openings over the dward wall in the Twin ward in all the ways. The width of this ward is 40' and with both sides open, the whole ward will be wet during the rainy season if no suitable protection is made. The design adopted for the ward may be a standard design well suited and quite successful in the plains where the annual rainfall is generally from about 25" to 50" but is not suitable for South Kanara which has a rainfall of about 120" during the four months from June to September. The Twin Ward, without proper protection against rain, will be almost unusable during rainy season by anyone.

Necessary protection can be given by installing glazed windows with swivel doors (which can be opened and closed) at one or two places in each, similar to the provision made in Wenlock Hospital. This is likely to cost about Rs.5000/-, at Rs.5/- per sq.ft. In this case also, the question as to who should provide funds looms large.

In this connection, I may submit that if G.O.No.3403 P.W. dated26-9-49 and G.O.Ms.No.3096 Health dt.5-9-50 are literally interpreted and followed, the Government need not and should not spend a single pie more and should call upon the Mangalore branch of the Provincial Welfare Fund to provide the entire funds required since the contributions made by them is far short of their original promise. If this condition is insisted on, judged by the conditions prevailing locally, I feel there will be very little chance of the Sanatorium functioning properly in the immediate future though some make shift arrangements can be made and will definitely be made for the opening functions since the Government have decided to perform it. If the sanatorium is really to fulfill what it is meant to, unless the water supply is assured and some protection against rain is made in the Twin Ward sufficiently in time before the outbreak of monsoon early in June, the sanatorium cannot function satisfactorily.

However, I submit, the fact remains that a set of buildings costing about Rs.1,72,000/- have been almost completed but..

57

but remain unoccupied for the past several months due to lack of certain primary necessary amenities. A very early decision has to be taken as to who should bear the further expenditure on the provisions of these necessities without which it will not be possible to use these buildings. I will submit detailed estimates for the further items of works to be done on receipt of intimation of provision of funds or if need be, earlier if it is desired.

I have requested the District Medical Officer to arrange for the necessary funds required for the opening function.

I request early orders may kindly be issued for incurring the expenditure required for arranging for interim and permanent water supply and providing protection against rains. I once again submit that without these amenities the sanatorium cannot function satisfactorily. Of course, if it is decided that the above financial commitments are to be borne only by the Mangalore Branch of the Provincial Welfare fund, I request that they may kindly be addressed. However, I am afraid it may not be helpful to achieve the efficient functioning of the Sanatorium for it, to be opened on the 26th instant.

Office of the Chief Engineer, P.W.D.
(General & Buildings), Chepauk, Madras-5.

D.O.No.4022 WKS(3)/55--12 dated 7--4--1955.

Dear Sri Muthukrishnan,

Sub: Buildings - T.B.Sanatorium at Mudushedde taking over by Government and opening by the Chief Minister during last week of April 1955.

Ref: Your D.O.No.15 CD dated 6-4-1955.

It is conceded that the lack of reliable water supply to the Sanatorium and lack of protection of Twin ward against monsoon are drawbacks in the proper functioning of the Sanatorium. As per the terms of G.O.No.3403 P.W. dated 26-9-1949 and G.O.Ms.No. 3096 Health dated 5-9-50, all the funds for the T.B.Sanatorium work over and above the sum of Rupees One lakh sanctioned by Government have to be provided by the Mangalore Branch of the Provincial Welfare Fund. If their funds are insufficient to meet the cost of the remaining works there seems to be no other option but to obtain the sanction of Government for incurring the expenditure on these items from State funds. The Government are being addressed separately in the matter.

These drawbacks need not hold up the opening ceremony of the Sanatorium, which has already been decided on. So I request you to see that all necessary arrangements may be made for the opening ceremony by the Chief Minister during last week of April 1955.

Yours sincerely,

(T.Muthian)

To Sri V.Muthukrishnan, B.E.,
Executive Engineer, South Kanara Division.

Immediate.

H. & I.A. (H-IV)-

Memo. 10073/H-IV/54-1 dated 6-4-54

Read: From the CE Provincial Stores, D.D. 4 dated 29-3-54

Sub: Tuberculosis - T.B. Sanatorium, Mudishedde - Opening of.

4022-WB(2)/55-1 dated 7-4-55

The D.M.S. is informed that the opening ceremony of the T.B. Sanatorium, Mudishedde, will be on the 29th April 1955. Orders approving the interim arrangement proposed by the Exe.Engr., South Kanara Division, Mangalore, in his letter No.15 C.D. dated 6-4-54 to the Dy.C.E., P.W.D., Madras, for provision of water supply to the T.B. Sanatorium and authorising him to incur an expre. of Rs.2,000 for the provision of water supply thro' lorries will be issued separately. It is understood that the wells contain slob, silt and that silt have to be cleared in the two wells in the Sanatorium and deepened at once. The D.M.S. is requested to issue immediate instructions to the D.M.O. South Kanara in the matter and if no water is available after effecting the improvements, supply of water thro' lorries should be made at a minimum cost.

2. The Provincial Welfare Fund, South Kanara Dt. Branch will meet the expenditure connected with the provision of shutters and blinds to the Sanatorium. The D.M.S. is requested to meet all the other expenditure. Sanction will be accorded separately to the incurring by the D.M.O. South Kanara an expenditure not exceeding

Health, Education and Local Administration Department.

Memorandum No.10073 H.IV-2/54-11 Health dated the 12th April 1955

Sub: Tuberculosis - Tuberculosis Sanatorium, Mudishedde - Opening of.

Ref: From the Director of Medical Services D.O.47769-M/54 dated 11-4-55.
From the Chief Engineer P.W.D.(General and Building) No.4022-Wks.(3)/55 dated 9-4-55.

The Director of Medical Services is informed that the opening ceremony of the Tuberculosis Sanatorium, Mudishedde will be on the 29th April 1955. Orders on the interim arrangement proposed by the Executive Engineer, South Kanara Division, Mangalore, in his letter No.15 C.D. dated 6-4-54 to the Deputy Chief Engineer, P.W.D. Madras, for provision of water supply to the Tuberculosis Sanatorium will be issued separately. It is understood that the wells contain a lot of silt and that if silt is removed from the two wells in the Sanatorium, water may be available. The Director of Medical Services is therefore requested to issue telegraphic instructions to the District Medical Officer, South Kanara for the removal of the silt and for deepening the wells. If no water is available even after effecting then improvements, supply of water by lorries or carts should be arranged at a minimum cost.

2. The Provincial Welfare Fund, South Kanara Branch should be asked to meet the expenditure connected with the provisi of shutters and blinds to give protection to the twin ward against the monsoon. Sanction will be accorded separately to the incurring by the District Medical Officer, South Kanara of the minimum and essential expenditure on items which are not arranged for by the Provincial Welfare Fund, South Kanara Branch.

3. The Director of Medical Services is also requested to take steps to see that the minimum staff required for the functioning of the Sanatorium with effect from 29-4-1955 (opening day) is employed without delay and that necessary arrangements therefor are made immediately.

ORDER:

In connection with the opening function of the Tuberculosis Sanatorium, Mudeshedde, the Government approve of the interim arrange--ment proposed by the Executive Engineer, South Kanara Division, Mangalore, in his letter No.15 C.D. dated 6-4-54 to the Deputy Chief Engineer, Public Works Department (General and Buildings), Madras for provision of water supply in the Tuberculosis Sanatorium, Mudeshedde. The Executive Engineer, South Kanara Division is authorised to incur an expenditure not exceeding Rs.2,000/- (Rupees two thousand only) for the provision of water supply in the above Sanatorium. The two wells in the Sanatorium should first of all be cleared of all the silt and also deepened to the extent possible to see whether they yield any appreciable quantity of water and the supply of water by lorries on carts should be arranged if the supply in the wells is found quite inadequate, keeping down the cost to the minimum possible.

2. Sanction is also accorded to the incurring by the District Medical Officer, South Kanara of essential expenditure not exceeding Rs.2,000/- (Rupees two thousand only) in connection with the opening ceremony on items which are not arranged for by the Provincial Welfare Fund, South Kanara District Branch.

3. The expenditure will be debited to "38. Medical. b. Hospitals and Dispensaries - B. Mufassal Hospitals and Dispensaries - 1 - Ordinary areas - 8. Other charges - Other charges".

REPORT ON THE T. B. SANATORIUM SCHEME

OF

THE SOUTH KANARA DISTRICT BRANCH

OF

THE MADRAS PROVINCIAL WELFARE FUND

Presented

On the occasion of the Handing Over of the Sanatorium Buildings at Moodashedde to the Government on behalf of The Madras Provincial Welfare Fund

and

Declaring Open of the Sanatorium by

The Hon'ble Sri K. KAMARAJ, M. L. A.,

Chief Minister, Madras

On Friday, the 29th of April 1955 at 9-15 a. m.

Hon'ble Chief Minister Sir and Hon'ble Minister Sir and Friends,

"SERVICE TO HUMANITY IS SERVICE TO GOD"

Fully appreciating the ideals, aims and objects of the Madras Provincial Welfare Fund, a District Branch was formed in 1947 with Dr. M. Keshava Pai, O. B. E., M. D., as the first President.

One of the very first problems, which on account of its magnitude and alarming rate of increase, claimed the attention of the newly formed District Branch was the prevalence and incidence of the dreaded disease "Tuberculosis" which was levying a heavy toll of precious human lives year after year in our District also.

It is a sad fact that in our India one precious human life is lost every minute on account of T. B. In the Madras state, as far as it is known, there are 79,000 deaths per year on account of this disease alone and that there are always 3,95,000 active T. B. cases. For a reasonable control over this alarming incidence of tuberculosis in the state a minimum of 630 clinics and 79,000 beds are required, whereas we have only 12 clinics and 1900 beds. Private medical practitioners and also doctors serving in the Government Hospitals in this District, are unanimous in the view that our District is not at all an exception to the general average of the State regarding the incidence and effect of T. B. Thus we have to presume that in our District, there are at least 2200 deaths per year and 1,11,000 active T. B. cases. And we had only one private institution at Moodabidri and a shed attached to the Head Quarter's Government Hospital at Mangalore to care for the thousands of T. B. sufferers who are too poor to go outside the District for treatment.

A scheme for the establishment of a T. B. Sanatorium for the District was drawn up by the District Branch and Sri C. G. Carlson, the then Agent of the Imperial Bank of India at Mangalore, who was the Secretary of the District Branch, worked untiringly and the present site was selected for a T. B. Sanatorium for the District. This site which covers an area of about 270 acres is only about 7 miles from Mangalore and is on a plateau by the side of the Mangalore-Karkal highway. It is really fortunate that this vast tract of land had remained unassigned by the Government so long.

The State Government encouraged us in every way in our desire to establish a T. B. Sanatorium. On our application, they readily reserved this valuable land for Sanatorium purposes and agreed to equip, maintain and run the Sanatorium at their own cost, on our providing the buildings from donations and contributions. We are aware that Hon'ble Sri A. B.

Shetty, M. L. A., Minister for Health, has smoothed out many a difficulty, technical and otherwise, in our scheme for the Sanatorium, and we are extremely grateful to him for the same.

On account of various circumstances, we had to modify our original scheme which was meant for 250 T. B. patients to a working unit of one for 42 patients only. At present the sanatorium will not serve even a tenth of the needs of the District, but it will be, we hope, a nucleus to start with, and in the near future develop sufficiently to give adequate relief to the thousands of poor sufferers of this District.

The present working unit of the Sanatorium consists of an Administrative Block, a Twin ward of 42 beds, Quarters, for three nurses, an Assistant Surgeon, four nursing orderlies, one compounder and three thoties. All these constructions including the two wells and Rs. 2500/— paid for acquiring land for a 100 ft. approach road, has cost a total of Rs. 1,72,660—0—0, out of which the Government has paid us a building grant of Rs. 29,400—0—0. Thus a sum of about Rs. 1,43,000—0—0 has been contributed through us by the general public and public institutions towards the construction of these Sanatorium buildings.

A list of persons and Institutions who have so generously and readily contributed towards this object, is appended at the end. Practically 60 donors have paid for these buildings and we have hundreds of persons in this District who are very generous with their donations to public charities. We are therefore sure, that we will be able to contribute further for the necessary expansion of this useful and necessary institution.

In this connection we cannot but make a reference to the disappointment caused to us by the Trustees of the Gandhi National Memorial Fund in not releasing so far a sum of about Rs. 92,000—0—0 being this District's share of collections unanimously recommended by the District Committee of the Gandhi National Memorial Fund to be donated to this Sanatorium.

We are happy to record that every one, whom we had occasion to approach in connection with the Sanatorium at one time or another, gave us their full and whole-hearted co-operation. All the members of Legislature from our District have been troubled by us for something or another. Sri Thombat Keshava Rao, Retired Executive Engineer, Public Works Department, has given us valuable help in the preparation of plans and construction of the building which has considerably brought down the cost of construction without detriment to the beauty and stability of the structure. Sri V. M. S. Rao Thalithaya, A. M. I. E., a reputed consulting architect of Mangalore has given free his valuable services in the construction of the buildings.

Sowcar Sri M. Venkatesh Pai, besides being himself a generous donor to the building fund has been a treasurer of the Fund from the inception till his sad demise in the prime of his life. The loss to our Committee by his untimely death is irrepairable.

Sri A. Damodar Pai, Supervising Director of the Canara Bank, Ltd., who succeeded Sowcar Sri M. Venkatesh Pai as our Treasurer rendered valuable services till he left Mangalore for Bangalore.

Our special thanks are also due to Sri U. Subba Rao, Retired Assistant Engineer, Public Works Department, who was supervising the construction work on our behalf and to Sri B. Aithappa Maistry, the Contractor who actually constructed the buildings.

Hon'ble Minister Sirs, it is with great pleasure and some little pride that we hand over the Sanatorium Buildings to our state Government. No doubt this is not a very great achievement to boast of but we may be permitted to add that all the persons who have worked for the achievement of this object, and the persons or institutions who have so generously donated for the building fund, have been moved by the same spirit of public service which is required for costlier schemes.

We humbly pray that the Sanatorium may serve the needs of the general public at all times.

We remain,
Sirs,

On behalf of the S. K. District Branch of
The Madras Provincial Welfare Fund.

GOVERNMENT TUBERCULOSIS SANATORIUM,

MUDUSHEDDE, S. Kanara.

JOINT SECRETARY TO GOVERNMENT
4 3920
MAY 1954
HEALTH, EDUCATION AND LOCAL ADMIN. DEPT.

Report of the District Medical Officer,

S. KANARA.

Tuberculosis is an ancient universal and cosmopolitan disease. Evidences of the disease were discovered in the Egyptian mummies. The ravages caused by the disease are appalling. The number of open cases i. e sputum positive cases will be about 5 times the number of total cases. The manifestations of the disease are protean. About 65% of the cases affect the respiratory system, 32% alimentary and bone etc. and about 2% the lymp nodes.

The Government Tuberculosis Sanatorium, Mudushedde is an offspring of the combined contribution of the Provincial Welfare Association, South Kanara and the Government. The location of the Sanatorim is ideal and the approach to it being the pucca road leading to Udipi from Mangalore. As early as 1953 the equipment for the Sanatorium such as bedsteads, lockers medicine and linen were obtained at a cost of Rs. 18404-8-0 and stocked in the Government Headquarters Hospital, Mangalore. Rs. 20000/ was spent on sanitary fittings and underground drainage. An X-ray plant and developing Tank was ordered for Rs. 20,375/ but the order had to be cancelled as the electric supply was not available. The Sanatorium is situated about 7 miles from Mangalore. Much difficulty will be felt to transport tubercular patients from Mangalore to the Sanatorium as there is no ambulance. Till a separate X-Ray plant is made available to the Sanatorium the patients have to be taken to Mangalore for X-ray The Municipal authorities have kindly lent their ambulance to carry the patients from both the Govt. Hospitals at Mangalore to the Sanatorium and it is hoped that they will be able to lend the ambulance as and when required, to convey the patients to and fro till an ambulance is sanctioned for us. This is one of the difficulties. Another difficulty which was overcome to a certain extent is the water supply. Here again the Municipality have to come to our help and agreed to supply 1000 gallons of water every day till the supply in the wells are sufficient for the patients and the staff at a cost of about Rs. 30 per day. Permanent and adequate water supply for the Sanatorium is essential. A telephone link to the Sanatorium is also essential and the Government will be addressed in the matter. Attempts are being made to give the patients protection from the monsoon rain by constructing glazed windows moveable on pivot joints. Extra buildings to accommodate the X-Ray plant will be necessary, so also a compound wall and a mortuary.

A rehabilitation centre is also essential as a person who was leading an active life cannot resume his work after getting the disease arrested. An occupation entailing less physical exertion had to be found for him after he is discharged from the Sanatorium. In a rehabilitation centre the discharged person can be taught a suitable occupation, for his condition to earn his livelihood.

The Sanatorium will be under the care of two Medical Officers, one of whom has the T. D. D qualification. The modern methods of treatment with the essential hygienic conditions will be given. The other staff of the Sanatorium are three nurses, a compounder, male and female nursing orderlies and male and female toties. There will be accommodation for 42 patients and it is proposed to have a clinic also.

A proverb prevalent in the South says that if there is at least one good man in a place, for his sake there will be a much needed downpour of rain and benefit others also. Similarly I would like to mention that because of the visit of the Honourable Chief Minister, Sri Kamaraj, vigorous attempts have been made to have the Sanatorium opened by him and benefit the suffering humanity.

SPECIAL:

Secy., H.E.&.L.A.:

The Chief Minister intends touring in South Kanara from the 26th to the 30th April. The Tuberculosis Sanatorium at Moodushedde near Mangalor has to be taken over by Government and opened at an early date. The opening funcation may be done by the Chief Minister when he is in South Kanara.

(2) Col. Mirajkar's Bungalow: The taking over of this bungalow by Government may be expedited so that the opening of the Museum and the Art Gallery may also be done by the Chief Minister.

Necessary action may be taken in regard to both the above matters.

Sd. A.B. Shetty/28-3-55
Minister (Health).

(True copy).

...oOo...

H.E.L.A.(H4) Deptt.

With reference to the minutes of M.(H) above, it is submitted that the D.M.S., Madras, has already been informed that the Chief Minister is likely to open the new buildings of the T.B.Sanatorium, Mudishedde, South Kanara District, about the end of next month and he has been requested to expedite the further report promised in the concluding portion of his letter on page 15 c.f. and also offer his remarks on the letter of the Secy., the Madras Provincial Welfare Fund, S.K. Dist. Branch on pp.17-21 c.f.

The D.M.S's reply may be waited till 5.4.55

2. The C.E., P.W.D.(Genl. and Bldgs.) has not so far sent his reply to the Govt. Endt.No. 10073.H.IV.2/54-5, Health, dated 19-3-1955. A

draft D.O. to the C.E. is submitted for approval.

SR 28.3.55 — AV 28-3-55 — DS — CE 28/3

Received as DO No 10073 H2 1/55. 7 Hrs calls d 28.3.55 p.27/f

From the C.E. P.W.D (Genl & Bldgs) DO No L4022 works (2)/55-5 d 29.3.55 p.29/f

From the D.M.S DO No 47761 H-55. d 1.4.55. p.33/f

The proposal in this file relates to the taking over by Govt. of the T.B. Sanatorium, Mudeshedde and performing its opening function by C.M. during his tour in South Kanara from 26th to 30th April 1955.

The Secretary. the Madras Provincial Welfare Fund South Kanara Dist. Board, Mangalore has repoted to Govt. that the buildings for the T.B. Sanatorium Mudishedde ~~have~~ have been completed that the P.W.D. have put up Sanitary s and that the D.M.O. South Kanara has in stock the equipment for starting the Sanatorium. He has therefore requested that the buildings of the above Sanatorium may be taken over by Govt. and the Sanatorium started to funcation at an early date.

The matter was referred to the D.M.S. and the C.E., P.W.D. (Genl. & Builgs.) for immediate remarks and they were also informed of the proposal to have the opening function of the Sanatorium performed by C.M. when he tours South Kanara from 26th to 30th April. The C.E. has sent an interium reply stating that a report from the Executive Engineer, South Kanara Division has been called for, and a reply will be sent to Govt. on receipt of the report from the Executive Engineer. J.S. has spoken to Sri Ananda Rao Thro' Telephone on 31-3-55. The CE has promised a report within 2 or 3 days.

3. The D.M.S. has now forwarded to Govt. a

copy of the letter of the D.M.O. South Kanara dated 28-3-55 furnishing a list of minimum essential requirements yet to be provided in the T.B. Sanatorium Mudeshedde, before it can be made to start functioning. In the circumstances stated by the D.M.O. South Kanara, the D.M.S. considers that it may not be possible to open the Sanatorium in the last week of this month. He has stated that however he is forwarding a copy of Govt. D.O. on pp. 31-32 o.f. to the D.M.O., South Kanara for necessary urgent action.

4. The file may be circulated to M(H) for the perusal of the D.O. from the D.M.S. on p.33 c.f.
